ARSADI - If You Were Mine

I walk, you walk by
Try to talk, you talk with your eyes
If I knew your name
I would never be the same

I catch myself dreaming
About the flavour of your kiss
And your face haunts my mind
Maybe soon you'll see me
If I write you songs like this
Maybe talk to me in time, in time

If you were mine
I would help you find
All the shivers down your spine
If you were mine
I would leave behind
All the troubles in my mind
If you were mine

I see, you in the night
When you come to me with a candle light
And you light up my lonely heart
But still ooh we're a world apart

I catch myself wondering
If you'd have met me with a smile
If I would run after you
I guess we'll never know
If I don't change my timid style
And if you're looking for someone new
Someone new

If you were mine
I would help you find
All the shivers down your spine
If you were mine
I would leave behind
All the troubles in my mind
If you were mine

If you were mine
If you were mine
